Fact sheet: Set up warning notifications to your phone

BOM Weather App – How to set up warning notifications to your phone or device

The BOM Weather app provides live, local and from the trusted source. Download the app at http://www.bom.gov.au/app/ for access to hourly and 7-day forecasts, radar and warnings – wherever you are. It's free and ad free on mobile and tablet devices, with widgets so you can see the weather at a glance.

Step 1.	Step 2.	Step 3.	Step 4.	Step 5.
Open the BOM Weather app and click on the small menu (three lines) in the top right corner.	Select 'Notifications' to check or change your notification settings	Set up to 3 locations. And remember, if you're travelling update your location to get notifications for that area.	Customise warnings for each location. Choose one many or all – it's up to you.	Open your phone or device settings and enable BoM notifications.
