

An illustration depicting a landslide. On the left, a large mound of brown earth is shown with green arrows indicating the direction of the slide. In the center, a red truck with a grey trailer is stopped on a road. To the right, a woman in a green shirt and cap stands on a sidewalk, talking on a mobile phone. Further right, a man in a blue shirt and cap stands near a large crack in the road. A speech bubble in the top right corner contains the text 'get ready QUEENSLAND'.

Have you ever seen a landslide? What was it like?

How do you know when landslide is happening?

What would happen to your home, workplace or school if a landslide happened where you live?

How would happen you stay safe in a landslide?

# LANDSLIDE

[getready.qld.gov.au](http://getready.qld.gov.au)

- ① Landslides are large amounts of dirt, rock or mud sliding out of place that can damage buildings, roads and the environment.
- ② Landslides can happen after heavy rain.
- ③ Signs that a landslide might happen can be:
  - Damage to building walls or cracks in plaster, tiles or bricks
  - Cracks getting bigger in pathways or roads
  - Fences, walls, power poles or trees bending over
- ④ If you think a landslide might happen soon, call “000”.
- ⑤ Leave the area quickly.
- ⑥ **Get ready:** go to your local council or the Get Ready Queensland web pages to find an emergency plan you can do.
